

Human Verificaion

Study Information: Active Learning Space Study IRB # 2022-1040

I am conducting research to understand how the interior design of active learning classrooms affects classroom engagement. Please consider completing this short survey about your classroom experience. Your participation is voluntary. If you choose to participate, you may exit the survey at any time. This survey is not related to your class in any way: results will not be shared with your instructor and your grade will not be impacted by whether or not you choose to participate. We will not track or collect any personal information as part of this survey however, breach of confidentiality is always a risk with data. We will take precautions to minimize this risk by not collecting personal information and ensuring analyzed responses are not connected to a particular class offering.

Please contact Barbara Young at young256@purdue.edu if you have any questions about this survey.

If you have questions about your rights while taking part in the study or have concerns about the treatment of research participants, please call the Human Research Protection Program at (765) 494-5942, email (irb@purdue.edu) or report anonymously via Purdue's Hotline see www.purdue.edu/hotline.
